How it works  
what you get

The grow-your-own veg and herb subscription for gardeners who need a bit of a hand.

## How it works

## What you get

### Drop off

every month or two a box is dropped off with three different types of seed, compost and the right sized pots.

Three types of veg and herb seeds.

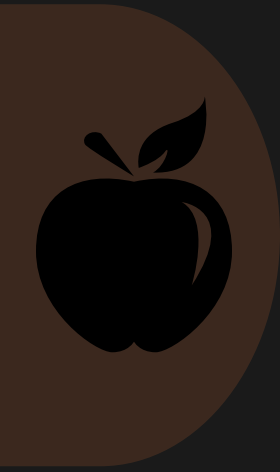

### You grow

You then start growing, following simple guides and how to videos (available on their Instagram and website) you will also be provided with a Potline number for and of your questions.

The right size pots for your seeds and peat-free compost.

### You eat.

You can then , enjoy your home grown veg and herbs.

support through how to guides and potline for any questions.
